

**Flake ice dispenser**

# Flake ice dispenser

Our delivery, storage and refilling modules work together seamlessly.  
Ice delivery become easy, fast and more hygienic. The refilling of the ice tank is automatic.

Because each company has its own way of consuming flake ice, each dispenser model offers different capacities.  
Ice transport is also available as an option.

## Which dispenser is right for you?

The size of the ice tank sets the maximum instant delivery capacity  
5 sizes :

- S : 1.1 US t (1 t)\*
- M : 1.6 US t (1.5 t)\*
- L : 2.8 US t (2.6 t)\*
- XL : 3.8 US t (3.5 t)\*
- XXL : 4.9 US t (4.5 t)\*

The unit production capacity and the number of ice makers set  
the maximum daily delivery capacity

3 models :

- G100 : 1 à 4 - 4.6 t US (4.2 t) / 24H\* per unit
- F200 : 1 à 2 - 9 t US (8.2 t) / 24H\* per unit
- F250 : 1 à 2 - 12 t US (11 t) / 24H\* per unit

## Features\*:

### Average dispensing speed :

175 lb/min (80 kg/min)

### Automatic flake ice refilling :

- 3 adjustable levels (low, intermediate, high)
- Adjustable timer

### Centralized management & remote controls :
